The Cloud Infrastructure Award: CITIC Telecom CPC

Wednesday 27 June 18

The Cloud Infrastructure Award

WINNER
CITIC Telecom CPC
SmartCLOUD

CITIC Telecom CPC's SmartCLOUD is a comprehensive Infrastructure-as-a-Service (IaaS) cloud platform offering a portfolio of virtualized enterprise-class applications and tools, to empower any organization of any scale, with world-class functionality and agility at breakthrough cost-effectiveness and capability. Its functionality spans virtual networking, computing, storage, backup, security and more. CITIC Telecom CPC has enjoyed a positive market reception for SmartCLOUD, with strong take-up from customers across various business sectors.

As its entry clearly demonstrated, CITIC Telecom CPC is constantly adding new features to its cloud portfolio. A recent addition came with launch of SmartCLOUD C2C Replication Service Enterprise in the third quarter of 2017, which is designed to address the significant business impact of server downtime. SmartCLOUD C2C Replication Service provides Disaster Recovery with Recovery Point Objective (RPO) of seconds (continuous data increment replication), and fast Recovery Time Objective (RTO) of minutes, along with a self-service portal and pay-as-you-go pricing model.

JUDGES' COMMENTS
"Minimising downtime is the most important factor for businesses. A strong enhancement to an existing cloud product."

"The customer-centric approach is a real differentiator."

FINALISTS
Airtel Business - Nxtra Cloud
China Unicom Global - Hybrid Cloud
Huawei - FusionCloud
Singtel - Managed Cloud Services
ZTE - CloudStudio
