**China Entercom recognized alongside other Alliance members  
for rectification efforts**

**(December 7, 2018, Hong Kong) – CITIC Telecom International CPC Limited** (“CITIC Telecom CPC”), a wholly-owned subsidiary of **CITIC Telecom International Holdings Limited** (SEHK: 1883), today announced its subsidiary **China Enterprise ICT Solutions Limited** (“China Entercom”), a member of the China Cross-border Data Telecommunications Industry Alliance, participated in the annual Members Meeting. A representative of China Entercom was also invited to speak at this key event.

The China Cross-border Data Telecommunications Industry Alliance annually holds its Members Meeting to summarize the Alliance’s activities over the past 12 months and discuss plans for the upcoming year. This year, the event was held in Beijing on November 16, 2018.

During the 2018 Members Meeting, Mr. Zhang Jianhua, Director of the Marketing Department at the Information and Communication Bureau of the Ministry of Industry and Information Technology of the PRC, spoke on various key areas of China’s information and communications market, including explaining regulations of concern to enterprises (such as the reform and regulation of the Internet access service market), and elaborated on efforts made to manage credit. Mr. Zhang also reported on the rectification status of the Alliance’s official members, in the members’ efforts toward compliance with the latest government standards, and proposed a key step for regulating China’s information and

communications market in 2019: “Highlighting regulation focus, strengthening enforcement and accountability”. Mr. Zhang also urged China’s domestic telecom operators to devote more effort toward upgrading network performance while reducing tariffs. He also stressed all Alliance members should maintain high levels of integrity, and that the Alliance should continue to serve as a bridge to facilitate industry collaboration. Mr. Zhang also recognized Alliance and its members for their efforts.

As official Alliance members, China Entercom and the other eight telecom companies were acknowledged by the local Communications Administration for successful rectification. A representative of China Entercom was invited to deliver a speech, during which he conveyed the company’s gratitude for recognition received from senior officials of the Ministry of Industry and Information Technology of the PRC, as well as for the Alliance’s support and invaluable services. He reiterated that China Entercom will continue to maintain a high level of integrity to ensure its business operates in compliance with established law and to the satisfaction of relevant authorities dedicated to the advancement of the industry.

CITIC Telecom CPC is greatly honored that China Entercom was acknowledged by the local Communications Administration for its rectification efforts, as well as for meeting communications service requirements and providing reliable and stable network access services. This latest recognition milestone also means enterprise customers can benefit from the company’s full range of ICT solutions, capture opportunities arising from the One Belt, One Road Initiative, attain greater success and further extend their global business footprints.
