

Since the start of Recovery Movement Control Order (RMCO), Telecommuting remains the default for all businesses where feasible. Businesses and employees need to adjust to the new business norm after the Movement Control Order (MCO), however remote access connectivity remains a challenge for many organizations during movement control order. Businesses need to focus their sights on the Recovery Phase and find out what they can do to smoothen the journey.

As your trusted ICT partner, we are always here to support your business along the way! Introducing TrueCONNECT™ Express Lite and TrustCSI™ UTM NFV service, with fast activation to ensure smooth business operations.

Let's tide over difficult times together!
