# CITIC TELECOM CPC

We are MTCS Certified!
Have a Free Cloud POC on Us!

Our award winning SmartCLOUD™ platform is designed for enterprise customers who require high data security and availability. We are delighted to share that our Singapore SmartCLOUD™ Compute, Backup and Replication services have been certified by IMDA (Infocomm Media Development Authority) Singapore Multi-Tier Cloud Security (MTCS) standards. MTCS is a standard that increase clarity, level of accountability and transparency around the security service levels of cloud providers. This is in addition to the multiple ISO certifications that CITIC Telecom CPC already have and a testament to our commitment to customers worldwide. So go ahead and have a free Cloud POC (Proof-of-concept) on us!

Free POC **SmartCLOUD™ DaaS Lite** (Desktop-as-a-Service)
that includes up to 100 virtual desktops

SmartCLOUD™ Compute (IaaS)
that includes computing power, storage and memory
