

West-East Global Cloud Ring

Cloud computing has obvious advantages for connecting employees wherever they may be, one team in one part of the country and another one over the sea, working remotely. For any business cloud computing is a boon, no matter what size the company is, benefiting from the ways it boosts productivity, improves workflow, and enables automation. Powerful computing and connectivity solutions ensure business continuity and compete effectively in local, as well as international markets, where risks and opportunities can change overnight.

CITIC Telecom CPC brings decades of ICT expertise and a vast global carrier-class infrastructure to empower enterprises with the **“West-East Global Cloud Ring,”** a fully managed scalable cloud platform with full Disaster Recovery capability catering to intra-city, inter-city and cross-boundaries redundancies.

Built on CITIC Telecom CPC’s innovative high-performance **SmartCLOUD™** cloud platform, the **“West-East Global Cloud Ring”** is a highly reliable and one-stop Cloud platform interconnected with CITIC Telecom CPC’s 21 Cloud Service Centre (CSC) across the world to accelerate your company’s digital transformation quickly, easily and smoothly.

HIGHLIGHTS

Enterprise-grade infrastructure, Managed by Global – Local Professionals

- World-class expertise and global resources at your local native point of presence for personalized approach
- Compliance with local legislation and personal data legal requirements. EU GDPR, Russia Federal Data Localization Law, and China Cybersecurity Law regarding MLPS 2.0 as well as ISO standards 9001, 14001, 20000, 27001 and 27017
- Expert assistance with licensing procedures and paperwork in local markets (for example, obtaining a China IP/ICP license) and round-the-clock technical multi-language certified support
- Enjoy a shorter path and direct connection to Asia, especially Mainland China. Delivering around 30% advantage in speed and cost savings of network resources

➤ **Global-Local Intelligent DICT Service Partner**
