Trouble-Free One-stop Cloud Solutions for the Enterprise

Future-proof your business with CITIC Telecom CPC's comprehensive cloud computing solution. SmartCLOUD™ is a suite of highly customizable cloud services focused on transforming and protecting enterprise IT environments. CITIC Telecom CPC offers trouble-free one-stop cloud solutions to help your organization achieve optimal utilization of mission-critical applications, so your teams can stay focused on core business innovation.

We are one of the very few cloud service providers in the world able to provide true customized cloud-network convergence ICT solutions spanning Greater China and the world. Our cloud professionals closely collaborate with your staff to meet every aspect of your needs, from requirements analysis, solution design, solution implementation all the way to ongoing support.

Future-Ready Cloud Services with ICT-MiiND & Multi-Cloud Connectivity

Stimulating Smarter Industries via ICT-MiiND

CITIC Telecom CPC is helping to create a new era of Smart Business through our ICT-MiiND strategy, which facilitates applications digitalization and intelligence through cloud platforms, transforming cloud services from simply providing computing resources to offering comprehensive data services.

Amplified through the ICT-MiiND framework, SmartCLOUD™ Analytic-driven Data Technology can help your business leverage innovative products and services to address new challenges. Utilizing intelligent algorithms and powerful computing capabilities, and combining advanced technologies such as Big Data, AI, machine learning, IoT, Blockchain, and even AR, all through the cloud platform. Accelerate and expand your business with SmartCLOUD™, the centerpiece of a transformative new paradigm for your Smart Industry future.

Future-Ready Multi-Cloud Connectivity

In today's digital globalization landscape, seamless, optimized and secure interconnections across businesses' distributed infrastructure, data centers and various cloud services platforms are vital to ensure smooth business operations and business continuity. With **Multi-Cloud Connect service**, enterprises can now enjoy a total managed interconnectivity solution that enables smooth, direct and seamless access to external cloud services provided by global and China service providers for rapid deployment of a secure hybrid network.

Enhance your Enterprise Performance with SmartCLOUD™ Cloud Computing Solutions

Global Expertise and Local Reach

CITIC Telecom CPC delivers a world of talent and experience at your service. Our global-local approach to ICT excellence means you can obtain the professional expertise you need without compromise, at your local point of presence, catering to every aspect of even your most demanding business needs.

Superior Service Availability

Extensive system and network monitoring keep watch round-the-clock to ensure 99.99% service availability.

Instant and Dynamic Resource Allocation

Full control of management and monitoring via a dedicated cloud management portal to quickly adjust pooled CPU, network, memory, storage, and other resources.

Trustworthy Cloud Compliance

CITIC Telecom CPC's datacenters have achieved 5 ISO certifications and other industry standards of excellence to ensure our infrastructure meets information security governance compliance and operational integrity criteria.

Mission-Critical Reliability

We also offer a comprehensive range of backup and disaster recovery solutions to address different server targets including physical servers, virtual servers, and SaaS applications (e.g., Microsoft 365) to protect your critical data and maintain business continuity.

Superior Service Availability & Data Sovereignty

With 99.99% guaranteed uptime of fully independent hosting zones at 21 Cloud Services Centers worldwide, you have your choice of physical locations to ensure your data will always remain within preferred geographies while being fully compliant with General Data Protection Regulation (GDPR), China Cyber Security Law and other local and international IT data protection regulations requirements.

IaaS - Infrastructure as a Service

Virtual Private Cloud
SmartCLOUD™ Compute
High-Performance Cloud Solutions At Your Total Command

Dedicated Private Cloud
SmartCLOUD™ vONE
ONE Dedicated Private Cloud for ONE Enterprise

Platform as a Service

Managed cloud-based container platform
SmartCLOUD™ Container
Fully managed container platform to simplify and streamline application development

SaaS - Software as a Service

Secure Business Email & Collaboration
SmartCLOUD™ M@il
Highly Secure Mobile Collaboration Tools

Unified Video Collaboration for Enterprise
SmartCLOUD™ VC
The Latest HD Quality Video Conference-as-a-Service

Backup & Disaster Recovery as a Service

Versatile Managed Cloud Backup & DR Solution
SmartCLOUD™ BRR
Virtualized Backup, Replication & Recovery with 100% reliability

Storage as a Service

Managed Object Storage
SmartCLOUD™ Object Storage
Maximize Digital Asset Value with Optimized Cloud Data Object

Virtual Desktop as a Service

Managed Virtual Desktop Service
SmartCLOUD™ DaaS Lite
A flexible managed VDI service with easy deployment without upfront investment

Managed Service

OS & Applications Management
SmartCLOUD™ Professional Service
Fully Managing and Supporting IT Operation
