

 **TrueCONNECT™**

Enterprise Connectivity Solution

Connecting Business

↗ Scalability ⤴ High Availability 🔒 Security

> Global-Local Intelligent DICT Service Partner

World-class Networking for today's Fast-paced Enterprise

TrueCONNECT™ is a transformative, fully-managed enterprise WAN solution, it delivers future-proof intelligent infrastructure featuring a full array of high-performance business connectivity options, such as Multiprotocol Label Switching (MPLS), Internet, Ethernet and multi-cloud connectivity, with software-defined capabilities and other advanced features.

Empowering Intelligent Innovations via ICT-MiiND

Enhancing Global Reach via ICT-MiiND

With ICT-MiiND, TrueCONNECT™ is able to integrate AI, big data analytics into the network service. Through intelligent analysis and smart machine learning of data, it creates scenario planning through algorithmic and correlation analysis to design and develop dynamic routing to optimize network performance.

TrueCONNECT™ offers fully meshed MPLS private networks with high QoS, agile SD-WANs supporting dynamically hybrid networks, multi-cloud topologies that optimize enterprise access to diverse cloud platforms. It is the intelligent answer for powerful, reliable, scalable enterprise WANs, backed by the superior infrastructure.

World-class Network Performance

TrueCONNECT™ operates over CITIC Telecom CPC's carrier-class global infrastructure, managed by round-the-clock professional teams to ensure it stays securely operating every day, every year.

Robust, Flexible, Fast

Designed with leading-edge technologies to provide high availability and resilience against a wide range of challenging situations, and without compromise in performance and flexibility.

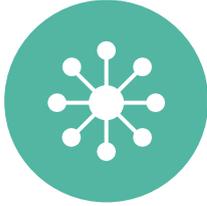

Powerful Connectivity with Low Latency

TrueCONNECT™ infrastructure provides ultra-low latency communications technology to support even the most demanding real-time media requirements, and to ensure high responsiveness for business applications and customer experiences.

Unbeatable Customer Experience

From initial contact and consultation, to deployment and ongoing support, we truly understand your perspective. Our many loyal customers over the decades attest to CITIC Telecom CPC's commitment to helping you achieve your success.

Convergence of Secure and Intelligent Cloud-aware Technologies

Secure Connectivity

TrueCONNECT™ topology leverages comprehensive threat management measures to protect our core MPLS network, and TrueCONNECT™ SASE further protects the network perimeter using a Secure Access Service Edge paradigm of modern distributed infrastructure.

Intelligent Network for Distributed Business

TrueCONNECT™ Hybrid SD-WAN redefining infrastructure for the needs of distributed enterprises to intelligently optimize application performance, bandwidth, network resources, and business agility.

Multi-Cloud Convergence

TrueCONNECT™ helps to easily optimize business advantages with seamless, fast and secure connections to multiple private, public and hybrid cloud platforms. Leverage the best service characteristics from each cloud services provider while mitigating risks like minimizing data loss or downtime due to localized failures.

Full-featured Enterprise Connectivity for a New Era

Fully Meshed for Maximum Scalability and Availability

TrueCONNECT™ gives you the flexibility to easily and quickly adjust bandwidth and connectivity options as your business evolves.

Extensive Points of Presence

Extensive coverage across the world, with peering arrangements with top-tier global carriers to ensure smooth connections in all key geographies.

User Friendly Management Portal and Online Tools

Gain traffic visibility and the ability to manage network status and provision services via a convenient Web-based interface.

Class-of-Service and Quality-of-Service

For more granular control over your enterprise network flows, TrueCONNECT™ offers CoS and QoS features for your organization to prioritize traffic, maximizing data security and network responsiveness to address any unique requirements for your business.

Bandwidth on Demand

Today's dynamic market favors agile businesses able to competently respond to rapid shifts. TrueCONNECT™ gives you peace of mind knowing your organization can easily and quickly access additional bandwidth, and scale up or down according to needs, without concern or quality compromise.

24x7 Networking Monitoring

Highly professional networking and security staff keep watch over CITIC Telecom CPC's infrastructure. Our non-stop efforts ensure trouble-free operation, round-the-clock, with proactive fault resolution and rapid response to any customer requests and issues.

A Powerful Suite of Business Solutions

 **TrueCONNECT™** Hybrid (SD-WAN)

Redefine your Business Agility and Advantages

 **TrueCONNECT™** Premium

Managed Private Network Service

 **TrueCONNECT™** Express

Speedy Provision of Private Network with IPsec Encryption

 **TrueCONNECT™** Remote

Secure Remote Access to Private Network

 **TrueCONNECT™** Premium VPLS

Efficient Private LAN Connectivity

 **TrueCONNECT™** Accelerator

Managed WAN Optimization and Private Network Accelerator Solution

 **TrueCONNECT™** SASE

Secure Connectivity

Managed **CONNECT**

One-stop Versatile Service Management Portal
